We hope to see all of you there!

PAST EVENTS

Dodgeball Game

On Thursday, January 26th, over 50 students were invited to participate in a teacher vs. student dodgeball game. These students received this reward for earning more than 100 merit points during the first trimester. The students had a great time in a friendly competition against the staff. We look forward to playing a different game with our second trimester merit point earners!

3d Grade Science Fair

The 3rd Science Fair took place on January 19, 2017. Students from 3rd grade worked in groups and presented their projects to various middle school students who acted as judges for the science fair. The 3rd grade students were judged based off of these categories: most creative, best scientific hypothesis, best question, best display, and best presentation. All of the students received a ribbon for their participation in the science fair.

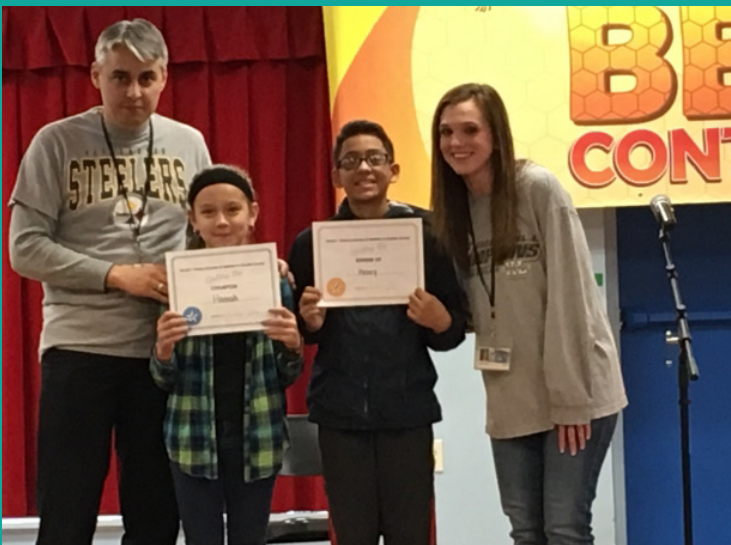

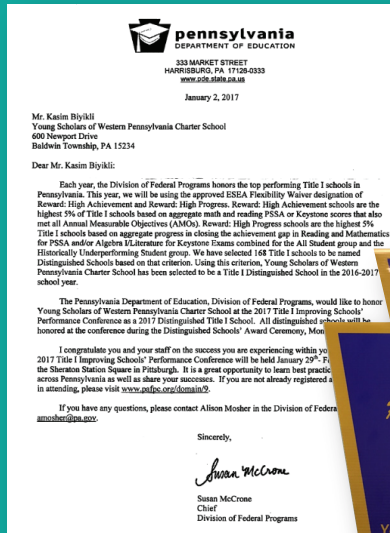

CELEBRATE BLACK HISTORY MONTH

Would you like to honor a famous African American with your talent? After learning about the countless achievements of African Americans in February, we would like to celebrate Black History Month in an awards assembly on Friday, March 3. Details of the event are sent home.

PAST EVENTS

Title I High Progress Award

Dear parents/students, Young Scholars has received Title I High Progress Award based on the test results for our Title I students. Congratulations to our students and staff for their hard work and dedication. Parents thank you again for your continuous support to our school.

Spelling Bee Championship
Young Scholars held their Championship Spelling Bee on Friday, January 20th. The two finalists were Hannah from 5th grade and Henry from 7th grade. Both of our participants studied for several weeks and worked very hard at the Spelling Bee. We would like to congratulate both of our participants, and we would like to recognize our winner, Hannah. Hannah will move on to compete in the Western PA Regional Spelling Bee in March at Robert Morris University. We wish her the best of luck!

PAST EVENTS

Parent Career Day

On Wednesday, January 18, Young Scholars conducted its second annual Parent Career Day. Parents from each homeroom came in to share information about their careers with the students in grades K-8. The students learned about various careers from nurse to disc jockey on the radio. The students were very excited to begin to think about their future careers and explore various options. The future is in the hands of our students, so we want to make sure to expose them and get them ready for their future careers as much as possible. This event is one small step in getting them there. Thank you to the parents who volunteered and helped to make this event a success!

FLL Grand Championship

On January 7th, Young Scholars Robotics team, Tiger Bot (Team 4828), attended the FLL Grand Championship at the La Roche College with families of team members. The Tiger Bot team competed in the robot performance. It was a great experience for students to advance their programming, design and strategy skills during the competition. Robotics team will continue to meet once a week to build Lego mechanism for rest of the year. Robotics team is sponsored by DSA (Data Science Automation).

YSWPCS Cheerleaders

YSWPCS Cheerleaders attended a Baldwin cheerleading camp on January 5th. They met other cheerleaders from the community, learned cheers and a dance routine. They also performed at half-time during a Baldwin-Whitehall basketball game on Friday, January 6th!
